9:00 a.m. - 6:00 p.m. 7 Days

ADMINISTRATION & SERVICE

8:00 a.m. - 5:00 p.m.

Monday - Friday

www.thegateway.com

The Gateway will again offer Dynamic Parking from June 1 thru June 3, June 12 thru June 16, and June 23 thru June 28. The cost will be \$40 per day.

The Gateway would like to introduce and welcome, Mr. Joel Wood who joined The Gateway as Chief Engineer. We are confident that Mr. Wood will be an asset to The Gateway community and to The Gateway engineering team.

We would like to Congratulate Ms. Shirley Lau on her promotion to Leasing Manager of the Gateway leasing department. She has been with us for four years and possesses the knowledge and leadership skills that will aid in her success in leading the leasing team.

Do not to allow unknown persons to follow (or "tailgate") you into the building. Tailgating is an easy way for unauthorized persons to circumvent the controlled access to the buildings

Trespassing signs have been ordered and will be posted throughout the property

As a reminder slow down while driving in the courtyard and garages. Many residents regularly walk through the garage and in the courtyard and have had to jump out the way due to negligent on-coming traffic. Please be aware the maximum speed in these areas is 5 mph.

Where should you recycle? Below is a re-cap from last month's Trash Talk from Bob D

VISTAS NORTH & SOUTH - recycles should be dropped into the chute either loose or in paper (never plastic!) bags. Landfill must be wrapped securely in plastic. Building staff will separate the landfill bundles from recycles.

VISTAS EAST & WEST - there are two trash chutes, one for recycles either loose or in paper bags (please - no plastic!) and the other for landfill which may be dropped in loose.

In all the towers compost should be taken to the recycle center in the garage. Of course, any item too large to fit into the chutes safely also goes there. Nothing is to be left in trash rooms in any tower.

TOWNHOME residents have a designated trash closet with three color coded containers: blue for recyclables, green for compostables and black for landfill. Those residents should also take oversize items to the garage

TRASH TALK

Six years ago a group of interested residents - The Green Team - met several times to plan a recycling procedure which, with management's cooperation, could create an effective recycling / composting program.

Today that program is functioning fairly well. With six years of history we can now take a look at what might be done to further improve the system. We would like your input. You can contribute to a discussion of what reasonable steps might be taken to tweak the procedure and create greater participation so that more is being recycled or composted and less is going into landfill.

You are invited to join us at 6:00PM on Tuesday, June 16th in Apartment 2217, Vista West. All you have to bring are your observations, ideas and a coffee mug. You won't be expected to "join" anything! Just email us at gateway.recycles@gmail.com so we know to expect you.

Bob D
